Momentum Insure has launched a new rewards programme designed to incentivise its clients for demonstrating safety behaviour. The Safety Returns programme offers clients up to 30% cash back on their paid premiums every year, regardless of whether they claim or not. To earn rewards, clients need to engage with the various safety-focused features included in the Momentum Safety Returns App, all of which are designed to help keep them safe, no matter where they are within South Africa.

Earning rewards with Safety Returns is easy, with clients earning points through a variety of activities, including completing the Safety Score questionnaire using the Safety Alert panic button feature, additionally, clients can also earn points by achieving Safe Dayz™ through their driving behaviour and by using other Momentum Insure features available on the Momentum App.

Once clients join the Momentum Insure family, they need to download and register their profile on the Momentum App, and register for Safety Returns to access the Safety Returns dashboard which provides a detailed breakdown of their current progress towards earning cashback bonuses, including the number of points earned, bonus percentages, and the number of points required to reach the next bonus level. All Momentum Insure car and home clients are eligible to register for Safety Returns via the Momentum App at no additional cost.
