

Constantia Village welcomes Deluxe Laser

A brand new Deluxe Laser branch has opened its doors in The Constantia Village shopping centre in Cape Town. The spa's trained therapists perform a range of skin and body treatments targeted at men and women that are non-invasive and virtually painless.

None of the treatments require recovery time, which means customers leave the spa without any redness or sensitivity. Deluxe Laser uses trusted skincare and body care brands, including QMS Medicosmetics and Caribbean Tan. It's also one of the few local spas that uses and stocks Italian brand Team Dr Joseph, which manufactures a wide range of products to delicately, but effectively, treat various skin types and concerns. The brand is committed to manufacturing "high-tech natural cosmetics" that fuse nature with science while respecting the natural balance of the skin.

Treatments on offer at the Constantia branch include permanent hair removal using Soprano Ice/eLase Motif laser technology and the FDA-approved Exilis Elite non-surgical anti-ageing procedure that uses radio frequency technology to reduce wrinkles and restore an even skin tone. For facials, Deluxe makes exclusive use of the award-winning spa brand QMS Medicosmetics. There are also manicures, massages and a range of cellulite-reducing treatments to choose from.

Deluxe Laser Constantia Village is the newest branch in the Deluxe Laser family. Other branches include Cavendish Square, Cloud 9 Hotel in Tamboerskloof, Piazza Da Luz in Sea Point, Watercrest Mall and La Lucia Mall.
