

# Loss of sales is a thing of the past with Do-It Reinforcer Hang Tabs

Issued by [Pyrotec](#)

28 Apr 2015

Have you ever lost a sale due to torn headers or broken hang holes because your customers refuse to buy broken packaging? If you answered yes to this question, Pyrotec PackMedia can offer you the perfect solution.

We offer the Reinforcer Hang Tab as part of our Do-It® Hang Tab merchandising solutions. The reinforcer hang tab is a clear adhesive tab that can be used to repair broken headers of your packaging. If your package is broken, simply apply the reinforcer to the top of the hang hole area and you will be able to hang your product up again.

Reinforcers need not only be used when repairing packaging, it can be applied before or after the blister card, folding carton or packet has been filled so that your product can hang for longer.

The benefits of the Reinforcer Hang Tab include:

- Eliminating torn header cards
- Improving existing packaging durability
- Reducing the loss of sales due to damaged or broken packaging
- Allowing manufacturers to use lighter packaging materials to support heavier products
- The clear tab won't interfere with your package's message

Reduce your damaged packaging and save costs with Pyrotec PackMedia. Contact us today (021 787 9600/ [do-it@pyrotec.co.za](mailto:do-it@pyrotec.co.za)) to get in touch with one of our sales consultants who are ready to assist with your merchandising needs.
