The festival goes live from 20 June to 20 July 2018, offering you the opportunity to view and discover the future talents and stars of the South African entertainment industry.

Last year's Online Experimental Festival proved to be a roaring success. The festival page on the AFDA website received a massive 42,165 visits from people in 38 different countries. That stat deserves a standing ovation on its own.

Please also feel free to share the festival productions far and wide with family and friends on social media.
