

Mpact adds new eggs to its basket

Issued by [Mpact](#)

21 May 2019

Here at Mpact we continually focus on remaining relevant to customer and market requirements.

Our focus is not only on designing and producing quality packaging items that meet customer expectations and requirements, but also on ensuring that end-products align with our deep rooted belief in creating a circular economy: produce, recycle, reproduce.

We have recently updated our generic product offering and invite you to view our vast range of bottles, jars, closures and preforms that we supply to a large number of industries across Southern Africa, including the food, beverage, personal care, home care, pharmaceutical, agricultural and retail markets. <http://www.mpact.co.za/our-products/plastics-business/pet>

The Mpact Plastics 'Innovation and Design Centre' is where our custom products are developed and designed. We drive innovation using the latest computer-aided design and model-building technology to ensure that all parameters are met before packaging arrives on the retail shelf.

Our operations are ISO 9001 and FSSC 22 000 compliant and certified. Versapak in the Western Cape and Gauteng is also British Retail Consortium (BRC) certified. Mpact Plastics is a keen participant in sustainability initiatives driven by Packaging SA and Plastics SA, and is a member of SAVA, Petco, Polyco and the Polystyrene Packaging Council.

About Mpact

Mpact is a leading producer of rigid plastic packaging and cling film, producing a range of packaging and serving a multitude of blue-chip customers within various industries, including products for the food, beverage, personal care, homecare, pharmaceutical, agricultural, industrial and retail markets.

Our investment in technology offers you the opportunity to be the change

As the leading paper and plastics recycler in South Africa Mpact gives effect to a true circular economy and hope for a brighter future for generations to come. Through state-of-the-art investments in recycling and packaging technologies, Mpact converts post-consumer PET beverage bottles, liquid cartons and paper packaging into new products.

Creating jobs.
Reducing landfill.
Closing the loop right here in South Africa.

mpact
smarter, sustainable solutions

So much more than packaging.
info@mpact.co.za | www.mpact.co.za

Mpact Plastics is a leading producer of rigid plastic packaging and cling film in southern Africa. We operate out of nine production centres across the country, providing packaging from plants with relevant certifications. We service the food, beverage, personal care, home care, pharmaceutical, agricultural and retail markets. In upholding company values, and as a supporter of the circular economy, we positively contribute to industry associations, enabling various communities to participate in recycling solutions.
