

The new evocative Range Rover Evoque

The Range Rover Evoque is available as a coupé or five-door and is intended to open Range Rover to new target audiences. The design aims to imply exclusivity, arouse emotions and generally make people's heads turn.

Blend it like Beckham

It boasts a bold exterior design and a strong, clean interior that was designed by fashion icon, Victoria Beckham with a contemporary, sporting feel and is available with a beautiful full-sized glass panoramic roof that floods the interior with natural light.

The lightest and most fuel-efficient Range Rover ever, the Range Rover Evoque demonstrates the marque's commitment to environmental sustainability, bringing sub-130g/km* CO2 capability to the premium SUV class.

Exciting times

Dr Ralf Speth, CEO for Jaguar Land Rover, said, "These are exciting times for our business as we continue to widen our portfolio with this all-new addition to the Range Rover line-up. Not only will the Range Rover Evoque increase our worldwide market share, but it demonstrates our commitment to building sustainable, yet highly desirable products."

True to the Range Rover brand, the Evoque aims to effortlessly deliver premium levels of craftsmanship, luxury and performance, but wrapped into a more compact package and is expected to be available from late 2011 at Land Rover dealers nationwide.
