

## DJ Nickie "Cartel" Duku to play in JHB

Celebrity DJ Nickie Cartel will be in South Africa on 10, 11 and 12 April, 2014, to hit the decks at the exclusive launch parties of the latest model of the Mi-Fone. While he is scheduled to play to a carefully selected few at the Mi-Fone launch in Joburg, he is also expected to do a few club gigs at other top Joburg clubs.

DJ Nickie Cartel joined Mi-Fone in early 2013 as its music brand ambassador. Being an international African DJ there was a clear win-win relationship between the two to explore ways of fusing modern smartphone technology with a strong International music presence. The partnership has also evolved into the soon-to-be new product launch called Mi-DondoW - an innovative portable Bluetooth music speaker.

Nickie Cartel has DJed in the biggest nightclubs in the world, from London's West End to the party strips of Ibiza and Dubai, and Hollywood's A-listers invite him to their homes to play at their private parties.

Information about where the public can see DJ Nickie Cartel will be made available in the next couple of weeks.
