

Witchfest moves to new venue

Witchfest Open Air 2015, the metal festival held from 2 to 6 April, 2015, has moved to a new venue and will now be held at the Crocodile Creek Concert Venue, located less than three minutes from Lanseria Airport.

The new venue is close to all major roads and freeways, making it easier for fans to get to the festival. Crocodile Creek is the same venue that hosts the monster Joburg Day festival, so it is well equipped to handle #WFOA2015. Witchfest has also announced that Mix93.8FM is its official media partner.

The festival will feature some of the biggest international names in the metal world with the likes of Cannibal Corpse, Hatebreed, Epica and Decapitated joining the bill. This ensemble of international metal acts will be supported by the very best that the South African metal scene has to offer.

Tickets and directions are available from www.witchdoctorproductions.com and www.computicket.com
