The wild concept was subsequently confirmed for production after the roll-out of the [upcoming Model Y](#). Now, Musk has taken to Twitter to ask followers for possible feature suggestions – while also confirming some of the specs.

“ What would you love to see in a Tesla pickup truck? I have a few things in mind, but what do you think are small, but important nuances & what would be seriously next level?— Elon Musk (@elonmusk) [June 26, 2018](#) ”

First revealed as a smaller version of the mighty Semi, Musk said that drivers with a regular license would be able to get behind the wheel of the pickup. As standard, the pickup will have dual-motor all-wheel drive with "crazy torque" and dynamically adjustable suspension.
