

ACSA Aviation Barometer for Q4 2016

The Airports Company of South Africa has released the fourth issue of the Aviation Barometer. The results show that ACSA broke records and achieved a historic milestone in 2016 with its network of nine airports reaching and passing the 39 million passenger mark for the year.

At the end of December 2016, 39.7 million passengers had been facilitated, a 5.4% increase from 2015.
