

## DA reveals their #Vision2029 on Twitter

DA leader Mmusi Maimane took to Twitter on 17 June to unveil the party's vision for South Africa in the year 2029. Of course the Twitter following voiced their praise as well as concerns for the country's future...

Using the hashtag #vision2029, his promise to the country in a DA-led future involves free quality education, anti-corruption policies, more crime prevention forces and an increase in job creation in SA's infrastructure and health sectors and more.

Unlike the [#AskMmusi](#) conversation, the #vision2029 had people asking some serious questions about SA's future.
