

Writing Masterclass

Fine-tune your writing skills for publications.

- Detect where your writing strengths lie, and kick them into action;
- Detect where your weaknesses are skulking, and wrestle them into surrender;
- Find copy that sings in a tune that not only your lover can hear, but your editor, too;
- Find confidence to tackle the tasks that have always looked a rung too high;
- Locate the bridge that takes what's in your mind to what's on your screen; and,
- Locate the border between gravity and levity and make use of both.
