

Teljoy launches EasyFix repair service

Teljoy has launched EasyFix, an in-home appliance and electronic repair service, independent of its current rental business. It offers consumers a convenient way to get their appliances and electronics repaired, using genuine quality parts.

The service is available across Gauteng, as well as Cape Town, Durban, Bloemfontein and Port Elizabeth. The service includes repairs to all major kitchen appliances and electronics, cellphones (including cracked screens), tablets and laptops. The company collects and delivers the unit back to the consumer and all repairs come with a 6-month guarantee.
