

Capital Craft Beer Festival goes to PTA

On Saturday, 11 June, 2016, the Capital Craft Beer Festival will be held at the Pretoria National Botanical Garden. The festival will combine the age-old tradition of drinking beer with new and exciting musical acts and introduce you to a vast variety of local micro-manufactured brews.

Microbreweries have fast become the tasty and trendy alternative to commercially brewed beers. At the festival you will be able to sample beers by over 30 different micro-brewers from all over the country.

Capital Craft Beer Fest promises to be a well-executed and unforgettable experience, and is aware of the problems at the entrance last year and has spent a lot of time brainstorming to resolve the problem. It guarantees a quick-and-easy entry to the festival.
