

“We’re one month into the project and we’re excited to watch some of South Africa’s best road trip routes taking shape on our community-sourced online map,” says Barend Smit, marketing director of MotorHappy, a subsidiary of Imperial, referring to the Ultimate Journey roadtrip map which is being built through votes and submissions from the South African public. To help create South Africa’s best road trip route, visit the [Ultimate Journey website](#) and add a destination to the map or vote for destinations already added to the map. Participants stand the chance of winning a R50 000 roadtrip, driven in a new Kia Sportage.
