

# Local collectors voice opinions on classic car industry

Globally, the classic car market has staged a significant recovery and in some cases have outperformed major stock markets. What is the outlook for the classic car market locally?

In anticipation of the second Concours South Africa, the team from MoneywebTV produced a series of interviews with local collectors and here are their thoughts on the industry:

- [Tommy Roes, MD of The Carfind International](#)
- [Anton Roux, RS Autosport](#)
- [Greg Marucchi, Concours SA](#)
- [Tony Vaughn, classic car investor](#)

The event will bring together the finest classic, luxury and sports vehicles, from pre-war vintage to the modern era. The competition is limited to 150 vehicles and is not a contest of speed, but of elegance - with automobiles judged on the quality of presentation, historical accuracy, technical merit, and style.

If you are passionate about the classic car market in South Africa and would like to mix with like-minded professionals, sign up for [Concours South Africa](#).
