Under the banner of 'togetherness', creatives, thought leaders and industry stakeholders gathered for a night of glitz, glam and awards celebrating digital excellence in the advertising and marketing industry.

"We've been through a lot these past two years. We were faced with many challenges — at home, in our businesses and beyond. Despite it all, we pushed through," IAB SA CEO Razia Pillay said at the awards. She went on to detail how the Bookmark Awards is a reflection of how the industry addressed those challenges — "with creativity, innovation and resilience. And it is these qualities that have enabled our industry and the businesses they serve to thrive in a digital economy. You should be incredibly proud of yourselves."

"We are extremely grateful to the creatives in this industry for the work they do. This year's winning entries were a testament to how the digital advertising and marketing industry is able to achieve business goals and create an impact — both within the sector and across the broader South African landscape," adds Pillay.

“Thank you to all the entrants and winners for helping the Bookmarks continue to benchmark digital excellence.”
