

Tesla's self-parking Summon feature comes to the Model 3

By [Nick Lavars](#)

6 Jul 2018

Tesla's Summon feature, which allows owners to have their vehicles autonomously pull in and out of parking spaces, has made its way to the company's first mass-market sedan, the all-electric Model 3.

Tesla's Summon self-parking feature is now available to Model 3 owners

Many Model 3 owners and owners-to-be may be used to playing the waiting game, but bit by bit, the company is starting to deliver on the mountain of preorders lodged for the vehicle, which number in the hundreds of thousands. It managed to ship just 18,440 shipped in Q2 this year, although this was a sizeable jump from the 8,180 shipped in Q1.

Elon Musk asks for development ideas for Tesla pickup truck

Paul Ridden 28 Jun 2018

Those with one already sitting in their garage, however, can now have their car autonomously pull in and out of parking spaces thanks to a new over-the-air update for the Summon feature, which was already available to [Model S](#) and [Model X](#) owners.
