

Mpact Versapak is 'school ready': New face shield for *kids*

Issued by [Mpact](#)

8 May 2020

The safety of our children and our communities are a top priority for us at Mpact. Aiming to make a difference through timeless innovation, we have developed a face shield specifically for children; ready for the reopening of schools.

Our face shield, specially developed for learners, is designed with safety, comfort and practicality in mind. Weighing a mere 46g, it comfortably fits over reading glasses and other face masks whilst fully covering the learner's mouth, nose and eyes.

One size fits learners of all ages. However, the shield can further be tightened by using an elastic band between the two loops at the back of the headband. Although the visor can be used multiple times and is fully washable, it can also be purchased separately if so required, once an initial set has been purchased.

During this critical time, this is another way in which we are trying to do our part in fighting this pandemic, help reduce the spread of the disease and keep our children safe.

The Mpact Versapak kids face shield is available in packs of 200 units, visors and headbands packed separately.

About Mpact

Mpact is the largest paper and plastics packaging and recycling business in Southern Africa with customers that include packaging converters, fruit producers, FMCG companies and other consumer and industrial packaging companies. Mpact's integrated business model is uniquely focussed on closing the loop in plastic and paper packaging through recycling and beneficiation of recyclables. Mpact has 43 operating sites, 21 of which are manufacturing operations, located in South Africa, Namibia and Mozambique. Sales in South Africa accounted for approximately 87% of Mpact's total revenue for the current period, while the balance was predominantly to customers in the rest of Africa. Mpact Operations (Pty) Ltd, the major subsidiary of the Group is a B-BBEE Level 1 contributor.

Mpact Plastics is a leading producer of rigid plastic packaging and cling film in southern Africa. We operate out of nine production centres across the country, providing packaging from plants with relevant certifications. We service the food, beverage, personal care, home care, pharmaceutical, agricultural and retail markets. In upholding company values, and as a supporter of the circular economy, we positively contribute to industry associations, enabling various communities to participate in recycling solutions.
