

Africa Agri Tech 2024

Advancing science- and tech-enabled agriculture

Africa Agri Tech 2024 focuses on the intersection between agriculture, science and technology and serves to connect the Southern African agricultural, scientific and technology communities at one event staged over three days.

Unleash innovation at Africa Agri Tech 2024

The event delivers premium insights coupled with best-in-class presenters and industry-leading exhibitors where visitors can explore global trends and discover the advances and innovations in science and technology for agriculture.

The event comprises a three-day conference, co-located exhibition and fringe events including the Innovation Challenge, Start-Up Pitches, Foreign Trade Lounge, Business Lounge and more. The event cuts across all commodities serving to provide updates to horticulture, row crop and livestock agribusinesses and farmers.

Explore the future of agriculture with us at Africa Agri Tech 2024.

Date: 25 June 2024 to 27 June 2024

Time: 08:00 - 17:00
