Last holiday pic (promise). This old guy forced us off the track then rubbed right up against our safari vehicle. He was so close we could've touched him... except we were all frozen with fear! Lake Kariba is home to a vast array of wildlife that drink from its sustaining waters. The Cape Buffalo pictured here, is one such animal. Buffalos are in fact, capable swimmers, so when you see this large species crossing deep water in search of better grazing, don't be surprised!
