

CM Solutions gets experienced metallurgical team leader for its mining lab

CM Solutions MetLab has appointed Given Khosa as metallurgical team leader; his remit is to ensure projects are on time and on budget, to coach and mentor the team as well maintain ongoing quality control and lab safety.

Khosa was previously with Goldfields, Mintek and Watercare Mining and has in-depth experience in rare earths, PGMs, and base metals. His 15 years of industry-wide experience is in developing metallurgical processes, supervising staff, designing pilot plants and optimisation, as well as commissioning and research.
