

Nest opens office in Africa to support start-ups

Nest, Hong Kong's start-up and early stage investment firm has opened an office in Nairobi to give African startups access to funding, mentorship and its global network

Nest is the first Hong Kong-based venture capital firm to establish itself in Africa and will be working to foster the region's top entrepreneurial talent.

Through sharing knowledge and experience, providing access to funding and making introductions to successful entrepreneurs, Nest supports start-ups on their path to success and enables them to scale rapidly.
