

Develop the next super app

Now in its second year, AfricApps will be the premier meeting of developers from across Africa, bringing the app gurus to show the future innovation of the African Digital ecosystem - taking place alongside [AfricaCom](#) from 12-14 November 2013 in Cape Town, South Africa. Supported by Mobile Monday South Africa, this will be a three-day festival of apps full of energetic and informative case studies and interactive workshops. The event has been extended to allow for even more developers to discuss and innovate about what will be the next super app. [Download 2013 Preview Brochure](#).
