

SatNav East Africa appoints MapIT

SatNav East Africa recently appointed South African digital mapping company, MapIT, as its Mapping Data Provider for East Africa. Established in 2011, the company is Uganda's pioneer in Global Positioning System (GPS) technology and GPS based consumer electronics. "We are very pleased to be working with the dynamic team at MapIT, and look forward to an exciting and successful journey together," said Vincent Okema, CEO of SatNav East Africa.
