

BDO Wealth Advisers integrates Lepar Financial Services

Financial consultancy BDO Wealth Advisers acquired Lepar Financial Services, an independent financial services provider based in Cape Town. The Lepar firm advises more than 230 families, about 20 retirement funds, and a further 100 Medical Aid members.

The acquisition means that the BDO Wealth Advisers team will expand to a team of 50 people across four BDO offices. The company's founder David Lepar and his team members have already moved into the BDO SA offices in the Foreshore.
